

CALIBR8 kids

A BRIGHTER TODAY AND TOMORROW

Like our adult formula, Calibr8 Kids contains acclaimed, natural ingredients that help optimize the creation of primary antioxidants. Creation of primary antioxidants has a particular value to kids. Nutrients stored in foods have a dual purpose – counteracting disease and promoting your child’s growth and development. That’s spreading them pretty thin. But, with primary antioxidants on the job promoting disease prevention, critical nutrients are freed up to help support your child’s physical and mental development.

“I had more energy and I could do things that I wasn’t able to do before. I could run faster, I didn’t get tired and it was easier for me to concentrate at school. My reading even got better.”

Bella R. ~ California

KEY INGREDIENTS

Broccoli Sprouts (Sulforaphane – proprietary process): Bioactive and highly standardized, it retains the crucial enzyme; myrosinase. Highly absorbable and based on global research that indicates it helps activate a potent epigenetic switch that promotes beneficial activity of Nrf2, QR, Glutathione Peroxidase (GPx) and other crucial enzymes for detoxification and cellular defense, as well as help suppress NF-kb, a regulator of inflammation.

French Cantaloupe: Superoxide Dismutase – Extramel® (Patent): A proprietary melon concentrate. This potent antioxidant helps alleviate stress, fatigue, irritability, and pain; promote better sleep, increase concentration and optimize internal Superoxide Dismutase production.

Chaga Mushroom: Prized by various cultures for its healthful properties, it is rich in nutrients: SOD, B vitamins, flavonoids, phenols, minerals, enzymes, and pantothenic acid.

Curcumin C3® (Patented): Extracted from the roots of the turmeric plant it contains clinically safe; 95% tetrahydrocurcuminoids. Reduces inflammation while eliminating and preventing the formation of free radicals.

Other ingredients include: BioPerine®, Black Cumin, Resveratrol, Quercetin, Probiotic Blend and more.
